SUPPLEMENTARY INFORMATION:

Background

On December 21, 1994, the Services published in the **Federal Register** (59 FR 65780-82 and 65884) a series of draft guidance documents and policy statements under the Endangered Species Act (Act) of 1973, as amended (16 U.S.C. 1531 *et seq.*). A brief description is given below of each of these documents and policy statements.

1. Draft Policy Regarding the Recognition of Distinct Vertebrate Population Segments: The authority to list a "species" as endangered or threatened is not restricted to species recognized in formal taxonomic terms, but extends to subspecies, and for vertebrate taxa, to distinct population segments. This document proposes to

adopt a policy to clarify the Services' interpretation of the term "distinct population segments" for the purposes of listing, delisting, and reclassifying vertebrates.

2. Draft Guidance for Candidate Species: This draft document is intended to provide internal guidance for the assessment, monitoring, and conservation of species that are candidates for listing under the Act.

3. Draft Petition Management Guidance: The purpose of this document is to provide policy and guidance for managing petitions submitted to the Services under the Act so as to promote efficiency and nationwide consistency.

4. Draft Section 7 Endangered Species Consultation Handbook: This draft handbook provides consistent procedures to the Services' for compliance with the affirmative conservation responsibilities of section 7(a)(1) of the Act, and for the conduct of section 7(a)(2)-(4) consultations and conferences.

5. Draft Handbook for Habitat Conservation Planning and Incidental Take Permit Processing: This draft document provides internal guidance for conducting the incidental take permit program under section 10(a)(1)(B) of the Act so as to promote efficiency and nationwide consistency within and between the Services.

Authority

BILLING CODE 4310-10-M

Notice of Inventory Completion for Native American Human Remains in the Possession of the Field Museum of Natural History, Chicago, IL

AGENCY: National Park Service, Interior
ACTION: Notice

Notice is hereby given in accordance
with provisions of the Native American
Graves Protection and Repatriation Act,
25 U.S.C. 3003(d), of completion of the
inventory of human remains in the
possession of the Field Museum of
Natural History, Chicago, IL.

A detailed inventory and assessment
of these human remains has been made
by the Field Museum and
representatives of the Pawnee Tribe of
Oklahoma.

The cranium and mandible of a single
individual was acquired by The Field
Museum in 1894 from Ward's Natural
Science Establishment, Rochester, NY.
Information from Ward's identifies that
remains as a Pawnee woman killed in
Nebraska in September, 1875. There are
no associated funerary objects.
Inventory of the human remains and
review of the accompanying
documentation failed to establish the
individual's identity.

Based on the abovementioned
information, officials of The Field
Museum has determined that, pursuant
to 25 U.S.C. 3001 (2), there is a
relationship of shared group identity
which can be reasonably traced between
these human remains and the Pawnee
Tribe of Oklahoma.
